RESIDENCES OF STUDENTS

BY ETHNICITY

1983 & 1993

San Francisco Unified School District

San Francisco Unified School District
Planning, Research, and Information Systems
135 Van Ness, San Francisco, CA 94102
241-6454

**RESIDENCES OF STUDENTS
BY ETHNICITY
1983 & 1993**

RATIONALE: The Consent Decree charged the District with the responsibility to meet with appropriate agencies and "devise policies to promote and maintain integrated communities." The existence of integrated neighborhoods may influence the ethnic compositions of school populations and the District's transportation activities.

DATA BASELINE: The residences of all students actively enrolled on one day in May 1983 and one day in October 1993 were used to generate the pin maps. When viewing pin maps, be sure to note the date in the lower right hand corner.

NEIGHBORHOOD DEFINITION: The neighborhoods used for this series of maps were defined in a Coro Foundation demographic study published in March 1987. The boundaries are based upon Census Bureau tracts and clustered to conform to commonly used neighborhood designations. The use of these boundaries makes subsequent studies comparable to the 1987 analysis and District recordkeeping practices.

DOT DENSITIES: Although the computer prints one dot for every student, the dots representing students who live in the same or an adjacent building cannot be distinguished on maps of this scale. Use the numerical tables in the back of this report for more quantitative information.

NOTE: Pay careful attention to the numbers of students in various categories as well as the percentages. The numbers show the movement of certain groups of students in and out of neighborhoods more accurately than do the maps.

ADDENDUM

On the following pages you will find the report:

SFUSD, Student Ethnicity by Neighborhood
CBEDS Information Day, October 1, 2003

Which is an addendum to the report:

Residences of Students by Ethnicity 1983 & 1993

The purpose of this report is to provide a view of the ethnic composition of San Francisco neighborhoods ten years after the original report.

The raw data was processed in a way consistent with the original report using the same software.
