SFUSD/RPA (6/06/13)
March 6, 2013

TO:     All School Site Administrators
FROM:  Richard A Carranza, Superintendent
RE:    2013 SFUSD Student Satisfaction Surveys

The district’s annual satisfaction surveys are an important measure of how well we are doing in our commitment to our students and their families, as outlined in our District’s strategic plan. The stakeholders that we survey annually include students (Grades 5, 8, and 11), school staff, site administrators, and families.

I am asking all our site administrators to help us increase the rate of return of all our satisfaction surveys. The more participation we have, the more valid and relevant these surveys will be as measures of district satisfaction.

School sites will be receiving both their student and school staff surveys in district mail.

Enclosed please find the student surveys for your school site.

- The directions for administration of the student surveys are included with each packet.
- The student surveys should be administered only in Grades 5, 8, and 11.

Please return the completed student and school staff surveys to our Research, Planning & Accountability Department (RPA) in the envelopes provided by April 5.

Family surveys will be sent to schools in mid April to be included in student homework packets and to be collected and returned by the schools by mid May. Parent Liaisons will support this process.

Because the satisfaction surveys are voluntary and anonymous, all student, family, and school staff survey results will be reported by district and school only, while the site administrator survey results will be reported by district only.

I understand that this is a busy time for the school sites and appreciate your time in the administration of these surveys. Thank you for all your efforts in helping us to obtain this valuable data.

If you have any questions about these surveys, please contact RPA at 241-6454.
We want to know what YOU think about your school. This survey will give your school and the district important information we can use to improve your education.

This survey is confidential. Your answers will be combined with those of other students at your school. No one at your school will ever see your individual answers. This is not a test and there are no wrong answers. You do not have to answer any question you do not wish to answer, but we hope you will answer as many questions as you can.

Please fill in a circle for each item using a pencil or a black ink pen like this: ● Not like this: ☒ ☐ ☐
